Work Experience

e.Soft Technologies Oct 2021 – Present

Senior Software Engineer *(Software Engineer until Feb 2023)* *Mumbai, India*

- Owned architecture and delivery of **RealEstAi**, a multi-tenant legal SaaS for Alberta law firms (Next.js 14, Azure). Built its AI pipeline (GPT-4 and Claude) that extracts structured data from legal PDFs and generates firm-branded documents.
- Built and maintain **StaffWorks**, a workforce platform with 5,000+ concurrent mobile users: real-time geofenced clock-in/out over Socket.io, WebRTC voice calls, and a React Native app shipped to both stores.
- Cut critical mobile fix turnaround from days to under 30 minutes with EAS OTA updates, and automated iOS/Android releases with GitHub Actions and Fastlane.
- Led a team of 4 on the **Elynker** MSME platform: client calls, sprint planning, and hands-on development.
- Designed a 22-level RBAC system with TOTP MFA and audit logging on NextAuth.js v5; mentor 4 junior developers and own the team's PR review checklist.

Key Projects

FertilityAnswers – AI-Powered Mobile Q&A Feb 2026 – Present

React Native, Expo, TypeScript, OpenAI API, Pinecone, Redis, AWS

- Built a cross-platform app for 300+ domain experts with a RAG pipeline (OpenAI + Pinecone) that returns noticeably more relevant answers than keyword search; shipped via EAS Build with staged OTA updates.

Aryadhan – Commodity-Backed Lending on Blockchain Feb 2025 – Present

Node.js, Express, BullMQ, MongoDB, Avalanche (AVAX), NFT, Webhooks *e.Soft – Team of 7+*

- Built the **Finternet Gateway** that bridges the lending platform to the Avalanche chain: wallet creation, NFT minting, and token pledge/burn as loans are issued and settled. Live with **4 partner banks**.
- Built the webhook layer that notifies partner banks of on-chain events automatically.

SmartWMS – Multi-Tenant Warehouse Management SaaS Jan 2025 – Present

React, React Native, Node.js, TypeScript, Razorpay *Solo*

- Designed and built solo: web dashboard, mobile app, and backend as a multi-tenant SaaS with per-tenant data isolation and role-based access.
- Built a GST e-invoicing engine (IRN registration, signed QR, e-Way Bills) and a warehouse app covering barcode receiving, picking, packing, and proof-of-delivery.

RapidGST – GST Compliance SaaS & Mobile App Oct 2022 – Present

Next.js, React Native, Prisma, BullMQ, RabbitMQ, MongoDB, Redis, AWS *e.Soft – Team of 4-6*

- Core contributor on GST filing automation for Amazon, Flipkart, and Meesho sellers, **50,000+ monthly active users**. Built the invoice parsing and HSN/GSTIN validation logic and the BullMQ-backed APIs that keep processing if the user drops offline.
- Built the React Native companion app that syncs seller data over RabbitMQ and cut filing from hours to **under 5 minutes** with one-tap submission.
